## Post Experience Professional Qualifying Programme- (PEPQP)

The PEPQP is a short and direct route for Managers, Top and Experienced Executives to get IPMA-UK license without going through the general examination structure from foundation to Professional Part 2 and licentiate membership.

**All or part of the programme can be done by distance learning.**

## Programme Rationale

Many top Executives and Decision makers in both public and private organizations including top academic and top non-academic leadership and professionals at Unit, Department, Faculty and higher level with and without considerable and significant experience in **PROFESSIONAL MANAGEMENT** in the work place need to keep up to date with new ideas and to understand how other organizations and institutions have dealt with organizational problems and strategies at unit, departmental, directorate/faculty and executive management levels. Top academic and top non-academic leadership and professionals working in times of great change, increasing pressures and a globalised world must be equipped to make the right strategic decisions to deal with these challenges.

## Programme Rationale

Thus, this unique and globally acclaimed programme is strategically designed to provide participants with analytical and problem solving skills that will instill in them the confidence and the ability to handle effectively all the issues that confront their organizations at different levels of management.

The programme will also adequately equip them with the essential management consultancy skills that could be useful both within and outside their current employment.

## Programme Structure

Participants will be required to attend 6 sessions in three consecutive Saturdays. These intensive and interactive sessions will focus on case studies analysis of real world organizations, their strategies and the challenges they face in resolving their problems and crisis. Course include Strategic Issues in Change Management & Organizational Transformation; Strategic Issues in Crisis Management; Strategic Issues in Global Business Management; Strategic Issues in Management Consultancy; Strategic Issues in Operations Management; Strategic Issues in Project Management.

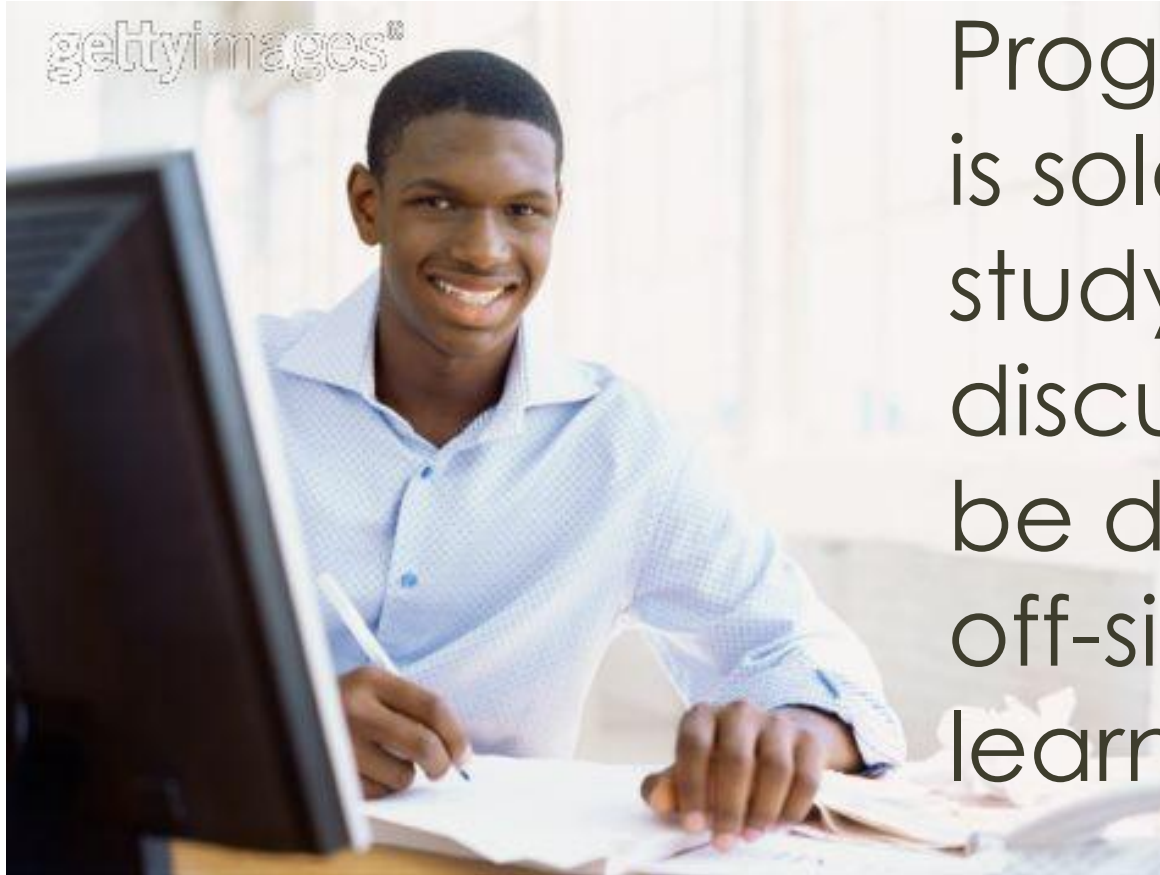

## Programme Award

Participants who complete the programme will be granted the IPMA-UK Practising License as Certified International Professional Managers (CIPM) to acknowledge their high standing and give them formal international recognition of their competency, skills, experience and leadership capabilities. They will also be awarded the Advanced Professional Postgraduate Diploma in Organizational Transformation and Management Consultancy as well as the prestigious IPMA-UK Membership Certificate.

## Programme Examination

Programme Examination is solely based on case study analysis and discussion, hence it can be done either on-site or off-site by distance learning.
